# General Instructions for Part A of the Kentucky Hazardous Waste Permit Application (DEP - 7058A, effective 6/1995)

Instructions are provided only for categories on Part A of the Kentucky Hazardous Waste Permit Application form, which are not self-explanatory. If you have questions about any information category, please call the Division of Waste Management at (502) 564-6716 and ask for the Hazardous Waste Branch. The form must be typed or printed legibly. Important Note: This Part A of the Kentucky Hazardous Waste Permit Application form will supersede all Part A forms previously submitted for your company. Be sure to include all information for every activity at your installation.

**Part A Filing Fee:** For first time submittals \$1,000, Part A permit renewal \$1,000. Significant Part A revisions which include new ownership, relocation, and addition or deletions of waste streams or process codes, \$1,000. See 401 KAR 39:120 for additional fee information related to Part B applications. See 401 KAR 39:060 for additional fees related to short term permits. See 401 KAR 39:090 for additional fees related to postclosures.

Checks must be made payable to the **Kentucky State Treasurer** and submitted with the form to the Division of Waste Management, Hazardous Waste Branch, 14 Reilly Road, Frankfort, Kentucky 40601.

First Submittal: Applications marked as "first submittal" must be accompanied by the completed form (DEP - 7037).

- 3. Latitude/Longitude: This can be obtained from a USGS topographic map. Latitude and longitude must be provided in degrees, minutes, and seconds. If you cannot determine this information for your company, leave this category blank and send a map which clearly identified your company's location with respect to named streets and landmarks.
- **4. Name of Land Owner:** Enter the name of the property owner(s) of the land. Identify EVERY individual or stockholder owning 25% or more interest in this property. Use a separate sheet if necessary. Identify the legal status of the land owner and provide a mailing address and telephone number of the land owner's contact person.
- **8. Name of Facility Operator:** Enter the legal name of the company(ies) or individual(s) that serve as the operator at this facility. Identify EVERY individual or stockholder owning 25% or more interest in the operation of this facility. Use a separate sheet if necessary. Identify the legal status of the operator and provide a mailing address and telephone number of the operator.
- 9. Name of Facility Owner: Enter the legal name of the company(ies) or individual(s) that own this facility. Identify EVERY stockholder owning 25% or more interest in this facility. Use a separate sheet if necessary. Identify the legal status of the owner and provide a mailing address and telephone number of the owner's contact person.
- 10. SIC Codes: Identify the four-digit Standard Industrial Classification code that applies to your business. If several codes apply, use up to four separate SIC codes to describe your business. The first SIC code entered is the primary code for the facility. SIC Codes can be obtained from the 1987 Standard Industrial Classification Manual available at libraries or from the Division of Waste Management or http://www.osha.gov/pls/imis/sicsearch.html.

## 11. PROCESS DESCRIPTION

COMMERCIAL 1 = Accepts waste from off-site generators

INDICATOR: 2 = Accepts waste only from related "captive" off-site generators (same corporation)

3 = Accepts waste from a restricted group of off-site generators

4 = Not commercial - accepts no off-site waste (Closed units should use this category)

UNIQUE UNIT OR GROUP NAME: Provide a brief and unique name (the computer will accept only 18 characters) for each unit or group of units at the facility. Do **NOT** include units that have verified clean closure. Names must be descriptive and must be identified on the attached maps. These names should be referenced on future submittal such as Part B applications and reports. Examples of descriptive names include: Tank Farm 1; Drum Area; West Pond; Cool Pond; Acid Tank; Tank B52; etc.

LEGAL STATUS CODE: Use from the double character legal status codes identified below for the process code selected for each unit/group name:

DL = Delisted

EM = Emergency Permit

IS = Interim Status

IT = Interim Status Terminated LI = Lost of Interim Status

LP = Loss of Pre-Mod

Authorization

NN = Non-notifier/Illegal

NR = Never Regulated as a TSD

PC = Post-Closure Permitted

PI = Permitted

PM = Pre-Mod Authorization

PR = Proposed

PT = Permit Terminated/Permit Expired, not Continued RD = Research, Development, and Demonstration Permit

RQ = Requested but Not Approved

RU = Permit-by-Rule

SR = State Regulated

TA = Temporary Authorization

PROCESS CODES: Use any code from the tables below that applies. The "Unit of Measure" used to report "Process Design Capacity: must be one of the codes identified in the table below. For example, a waste pile (S03) may only report "Process Design Capacity" in cubic meter (C) or cubic yards (Y).

TREATMENT						
PROCESS CODES	PROCESS DESCRIPTION	UNIT OF MEASURE CODE				
T01	Tank Treatment	D, E, H, J, N, R, S, U, V, W				
T02	Surface Impoundment Treatment	D, E, H, J, N, R, S, U, V, W				
T03	Incinerator	D, E, H, I, J, N, R, S, U, V, W, X				
T04	Other Treatment	D, E, H, I, J, N, R, S, U, V, W, X				
T80	Boiler	E, G, H, I, L, X				
T81	Cement Kiln	D, E, H, I, J, N, R, S, U, V, X, X				
T82	Lime Kiln	D, E, H, I, J, N, R, S, U, V, X, X				
T83	Aggregate Kiln	D, E, H, I, J, N, R, S, U, V, W, X				
T84	Phosphate Kiln	D, E, H, I, J, N, R, S, U, V, W, X				
T85	Coke Oven	D, E, H, I, J, N, R, S, U, V, W, X				
T86	Blast Furnace	D, E, H, I, J, N, R, S, U, V, W, X				
T87	Smelting, Melting, or Refining Furnace	D, E, H, I, J, N, R, S, U, V, W, X				
T88	Titanium Dioxide Chloride Process Oxidation Reactor	D, E, H, I, J, N, R, S, U, V, W, X				
T89	Methane Reforming Furnace	D, E, H, I, J, N, R, S, U, V, W, X				

# PROCESS CODES CONTINUED . . . .

"Use any code from the tables below that applies"

	TREATMENT CONTINUED						
PROCESS CODE	PROCESS DESCRIPTION	UNIT OF MEASURE CODE					
T90	Pulping Liquor Recovery Furnace	D, E, H, I, J, N, R, S, U, V, W, X					
T91	Combustion Device Used in the Recovery of Sulfur Values from Spent Sulfuric Acid	D, E, H, I, J, N, R, S, U, V, W, X					
T92	Halogen Acid Furnaces	D, E, H, I, J, N, R, S, U, V, W, X					
Т93	Other Industrial Furnaces Listed in 401 KAR 30:010	D, E, H, I, J, N, R, S, U, V, W, X					
T94	Containment Building for Treatment	C, D, E, H, J, N, R, S, U, V, W, Y					

	STORAGE	
PROCESS CODE	PROCESS DESCRIPTION	UNIT OF MEASURE CODE
S01	Container	C, G, L, Y
S02	Tank Storage	C, G, L, Y
S03	Waste Pile Storage	C, Y
S04	Surface Impoundment Storage	C, G, L, Y
S05	Drip Pad	C, G, L, Q, Y
S06	Containment Building for Storage	C, Y
S99	Other Storage	A, B, C, D, E, F, G, H, I, J, L, N, Q, R, S, U, V, W, Y

	DISPOSAL	
PROCESS CODE	PROCESS DESCRIPTION	UNIT OF MEASURE CODE
D79	Underground Inject Well Disposal	G, L, U, V
D80	Landfill	A, B, C, F, Q, Y
D81	Land Application	B, C, Q, Y
D82	Ocean Disposal	U, V
D83	Surface Impoundment Disposal	C, G, L, Y
D99	Other Disposal	A, B, C, D, E, F, G, H, I, J, L, N, Q, R, S, U, V, W, Y

"Use any code from the table below that applies"

	MISCELLANEOUS						
PROCESS CODE	PROCESS DESCRIPTION	UNIT OF MEASURE CODE					
X01	Open Burning/Open Detonation	A, B, C, D, E, F, G, H, I, J, L, N, Q, R, S, U, V, W, X, Y					
X02	Mechanical Processing	D, E, H, J, N, R, S, U, V, W					
X03	Thermal Unit	C, D, I, J, N, R, S, U, V, W, X, Y					
X04	Geologic Repository	A, C, F, G, L, Y					
X99	Other Subpart X (Other Miscellaneous Units)	A, B, C, D, E, F, G, H, I, J, L, N, Q, R, S, U, V, W, Y					

**PROCESS DESIGN CAPACITY:** If the unit/group of units is operating, provide the total capacity for the entire group of units identified under the Unique Unit ID Name. For example, a storage tank farm with four 1,000 gallon tanks could be reported as 4,000 G (gallons). If the unit/group of units is closed with waste in place, provide the total amount of waste or soil contamination disposed. For example, a landfill with an original design capacity of 1,000 cubic yards that closed with only 500 cub yards of waste in place would be reported as 500 Y (cubic yards). A tank that closed as a landfill due to contamination would be reported as a landfill (D80) with the estimated amount of soil contamination present in A (acre-feet) or F (hectare-meter). A certified clean closed unit which has been verified by the Division (i.e., a verified clean closed container storage unit) is NOT reported.

**UNIT OF MEASURE:** Use the single digit Unit of Measure Code identified below for the Process Code selected for each unit. For example for a container storage area (S01), the <u>only</u> valid units of measure are gallons (G) or liters (L).

A = acre-feet L = liters

B = acres N = short tons per day

C = cubic meters Q = hectares

 $\begin{array}{lll} D = short \ tons \ per \ hour \\ E = gallons \ per \ hour \\ F = hectare-meter \\ G = gallons \\ H = liters \ per \ hour \\ I = BTUs \ per \ hour \\ \end{array}$   $\begin{array}{lll} R = kilograms \ per \ hour \\ S = metric \ tons \ per \ day \\ U = gallons \ per \ day \\ V = liters \ per \ day \\ W = metric \ tons \ per \ hour \\ X = million \ BTU's \ per \ hour \\ \end{array}$ 

J = pounds per hour Y = cubic yards

**NUMBER OF INDIVIDUAL UNITS IN PROCESS:** Identify the number of individual units within the area identified with the Unique Unit or Group ID Name. For example, a tank farm may have five tanks within the containment area; a cooling water system may have only one impoundment; a container storage area may be divided into three separate containments areas, etc. Do not count the number of containers within each containment area; list the number of containment areas.

**OPERATING STATUS CODE:** Use from the double character operating status codes identified below for the process code selected for each unit/group name:

AB = Abandoned CR = Conducting Activities not Requiring a Permit BC = Before Construction IN = Inactive/Closing but not yet RCRA Closed

CC = Cleaned Closed OP = Operating, Actively Managing RCRA-Regulated

CO = Completed Post-Closure Care Waste

CP = Closed with waste in place PF = Protective Filer
DC = Delay of Closure SF = Referred to CERCLA
CV = Converted but Not RCRA Closed UC = Under Construction

CN = Constructed, Not yet Managing Hazardous Waste

**DESCRIPTION OF PROCESS:** Provide a brief description of each process for every unique unit/group name (i.e. storage of waste antifreeze, storage/treatment of halogenated waste, etc.)

#### 12. WASTE STREAM DESCRIPTION

**WASTE STREAM NUMBER:** Number each waste stream. A waste stream is the total output of waste at a single "point of generation" such as the waste generated by a piece of equipment or at the end of a pipeline, etc. Closed facilities/units should report the waste streams which remain on-site (i.e., landfill, disposal surface impoundments, soil contamination from tanks, etc.), but NOT generator accumulation wastes or clean closed units. (Waste stream examples: acetone waste (F003) which is generated from two separate processes (such as degreasing and paint removal) would be reported on two separate lines with two different waste stream numbers. A waste which is generated as a mixture of several hazardous wastes (i.e., degreasing solvent containing both acetone and 1,1,1-trichloroethane) would be reported as a single stream F003/F001, if it is mixed before the point of generation.

**ESTIMATED ANNUAL WASTE AMOUNT:** List the estimated <u>annual</u> amount of waste managed at this facility for each waste stream listed. For closed facilities, this category should be completed with a zero since no new wastes will be received annually (i.e., closed landfills, D80 can only be reported with a zero).

**UNIT OF MEASURE:** The annual estimated amount of waste managed must be reported in TONS (2000 pounds per ton). When possible, use the actual weight of the waste. Approximations can be made for liquids based upon the weight of water (8.34 pounds per gallon).

**EPA WASTE NUMBERS:** List every EPA waste number that describes the waste stream. Facilities/units that closed with waste or soil contamination in place should report the waste numbers for these wastes. The codes PALL, UALL, FALL, KALL, or DALL may be used to designate that a waste stream contains <u>EVERY</u> waste listed under P(PALL), U(UALL), F(FALL), K(KALL), D(DALL), or N(NALL) waste codes. The lists of hazardous wastes are found in 401 KAR 31:040. The waste numbers for characteristically hazardous wastes are found in 401 KAR 31:030.

**PROCESS CODES ASSOCIATED WITH THIS WASTE:** Identify every process code from the preceding page that is used in the management of each waste stream. Process codes on this page must match those reported in item 11 Process Description.

#### 13. EXISTING ENVIRONMENTAL PERMITS:

Identify every existing environmental permit that your facility holds. Categories that are not applicable may be left blank.

## 14. FACILITY STATUS:

Mark each category that is applicable. Identify whether your facility operates as a commercial waste management facility and whether waste is received from off-site. Commercial facilities typically are those that accept waste from off-site and whose primary business is waste management as opposed to manufacturing or other services. Non-commercial or private facilities typically handle only those wastes generated on-site or from related (same corporation) generators.

## 15. PHOTOGRAPHS, DRAWING AND MAPS:

Each Part A must be accompanied by the following:

(1) Topographic map of the area extending at least to one mile beyond the property boundaries of the facility which clearly shows: (a) the legal boundaries of the facility (b) the location and serial number of each existing or proposed intake and discharge structure (c) all hazardous waste management facilities (d) each well where you inject fluids underground and (e) all springs and surface water bodies in the area plus all drinking water wells within ½ mile of the facility which are identified in the public record or are otherwise known to you. Each map must contain the map scale, a meridian arrow showing north, and latitude/longitude at the nearest whole second. On all maps which depict rivers, show the direction of flow. You must use a 7½ minute map published by the US Geological Survey if one is available for your area. If a 7½ minute map is unavailable,

you may use a 15 minute map from the US Geological Survey. If neither a 7½ minute map nor a 15 minute map is available from the US Geological Survey, then use a plat map or other appropriate map which includes all the required information and briefly describe land uses in the map area (i.e., residential, commercial, etc.). You may trace a map from a geological survey chart or other map meeting the required specifications. If you do, your map must bear the number or title of the map or chart from which it was traced. It must include the names of towns, water bodies and other prominent points.

- (2) All existing facilities must include a drawing showing the general layout of the facility. The drawing must be approximately to scale and must fit on an 8 ½ x 11 inch piece of paper. The drawing must show (a) the property boundaries of the facility; (b) the areas occupied by all storage, treatment or disposal operations; (c) the name of each hazardous waste operation and this name MUST match the name provided for each unit in category 11; (d) areas of past storage, treatment or disposal operations; (e) areas of future storage, treatment, or disposal operations, and approximate dimensions for the property boundaries and all storage, treatment or disposal areas. NEW FACILITIES are not required to submit this drawing.
- (3) All existing facilities must include photographs that clearly delineate (a) all existing structures (b) all existing areas for storage, treatment, or disposal and (c) all known sites for future storage, treatment or disposal operations. Photographs may be in color or black and white. They may be taken at ground level or may be aerial photographs. The date, that each photograph was taken, must be included on the back of the photograph.
- **16. OWNER CERTIFICATION:** Each entity must certify the accuracy of the Part A form. All Part A forms must
- 17. OPERATOR CERTIFICATION: include this certification to be considered complete. Copies or stamped signatures are
- **18. LAND OWNER CERTIFICATION:** are not acceptable. If the company, which owns the facility is the same as the company which operates the facility, only one signature is required in Item 17. If one company owns the facility, operates the facility, <u>and</u> owns the land, then only one signature is required in Item 17. Each certification must be originally signed and dated by the owner, operator, land owner or an "authorized representative" of the owner, operator or land owner. "Authorized representative" is required by 401 KAR 38:070, Section 7 and specified in 40 CFR 270.11. It includes:
  - (1) For a corporation: By a responsible corporate officer. For the purpose of this section, a responsible corporate officer means (i) A president, secretary, treasurer, or vice-president of the corporation in charge of a principal business function, or any other person who performs similar policy- or decisionmaking functions for the corporation, or (ii) the manager of one or more manufacturing, production or operating facilities employing more than 250 persons or having gross annual sales or expenditures exceeding \$25 million (in second-quarter 1980 dollars), if authority to sign documents has been assigned or delegated to the manager in accordance with corporate procedures.
  - (2) For a partnership or sole proprietorship; by a general partner or the proprietor, respectively; or
  - (3) For a municipality, State, Federal, or other public agency: by either a principal executive officer or ranking elected official. For purposes of this section, a principal executive officer of a Federal agency includes: (i) The chief executive officer of the agency, or (ii) a senior executive officer having responsibility for the overall operations of a principal geographic unit of the agency (e.g., Regional Administrators of EPA).

**IMPORTANT NOTE:** All information submitted on this form will be subject to public disclosure to the extent provided by Kentucky law. Persons filing this form may make claims of confidentiality in accordance with 400 KAR 1:060.
